LUXURIES

(continued from page 5)

Doggie Mansion

Ah, what to get the pet lover who has everything, including a big backyard? A custom-built **Doggie Mansion**, of course! The 6-by-8 foot, handcrafted, wooden Key West Cottage (\$10,500 at www.doggiemansions.com or 877-MY-DOGGIE) is just one of the company's models. All have whimsical interiors featuring doggie couches, area rugs, toy chests, artwork, plants, lamps and more; like a TV/DVD player, air conditioning, operable windows and a hand-built door, which locks to keep Fido secure at night.

Choice Coffee Makers

Looking for something useful but not too personal? Check out the **Lavazza Espresso Point Machine** (\$875), which simplifies the process of making espresso and cappuccino. The machine is very compact and completely portable.

Above: a custom built Doggie Mansion and the Miele Nespresso® machine from Rymax.
